

# Sprint Report #2

## SlugShop

10/25/23 - 11/06/23

### Actions to stop doing:

In this sprint, the tasks are fairly simple and easy to manage so there is not much to “stop doing”. As long as we keep up on everything, we are on track to finishing the project in due time.

### Actions to start doing:

The team needs to get better at pushing code into the github. This hinders the scrum meetings as sometimes there is little to nothing to be shown as progress. Although the work is being done, we need to assess the overall scope of the project to see what else is going to be needed to be worked on/fixed. Scrum meetings are also a little lackluster, as there are many inconveniences with schedule conflicts and a lot of meetings are not full of every teammate.

### Actions to keep doing:

Teammates should keep interacting and communicating a lot in the discord. The discord makes up for all the lackluster scrum meetings held 3 times a week. Not only has the discord helped with furthering productivity, it also keeps everyone up to date and on their feet with their tasks.

### Work Completed/Not Completed:

SHOP-6	Mailto listings	Story	TO DO	1
SHOP-7	Decide on filtering for listing	Story	TO DO	1
SHOP-8	Integrate db with server	Story	IN PRO...	3
SHOP-23	Outside feedback on UI	Story	TO DO	1
SHOP-31	Sprint report	Story	TO DO	1
SHOP-20	Build skeleton website pages	Story	IN PRO...	2
SHOP-40	Listings page backend	Story	BLOCK...	3
SHOP-34	Login Page backend	Story	BLOCK...	1
SHOP-35	Front page frontend	Story	IN PRO...	-
SHOP-36	Front page backend	Story	IN PRO...	-
SHOP-37	Individual Listing page frontend	Story	IN PRO...	-
SHOP-38	Individual Listing page backend	Story	IN PRO...	-
SHOP-39	Listings page frontend	Story	IN PRO...	-

The “in progress” are actually all the completed ones, the blocks are to be moved to next sprint, and the to do are incompletd.
