

# Sprint Plan #3

## SlugShop

11/08/23-11/21/23

**Goal:** The goal of this sprint is to have a working demo of the project. With this sprint we would like to test the backend to have it work with the front-end.

### User Stories:

As a user I want a stable, user friendly platform.

- Individual Listings page should be done. \*2 hours
- Create Listing page should be done. \*2 hours
- Integrate Database with the server. \*3 hours
- Stress testing should be taking place. \* 2 hours

As a seller, I want to be able to see my active listings.

- Home page front end should be done. \*2 hours
- Listings page backend should be finished. \*3 hours
- Login page backend should be finished. \* 2 hours

### Team Roles:

**Michael:** Front-End Developer, Scrum Master

**Danny:** Front-End Developer

**Jobh:** Back-End Developer, Product Owner

**Matthew:** Back-End Developer

**Greg:** Database Developer
